Islamabad, Pakistan

UI/UX Designer with 2+ years of experience creating intuitive experiences across mobile, web, and SaaS products, with a strong focus on building scalable design systems and translating user insights into effective, seamless designs.

Work Experience

UI/UX Designer

Jan 2026 - Present

[Contour Software](#) | Islamabad

At Contour Software, I design enterprise web and mobile products, improve user experiences through feature enhancements and workflow optimization, and collaborate with cross-functional teams to scale design systems for TargetCRM and DIS. My contributions support U.S.-based enterprise platforms generating millions in monthly revenue.

UI/UX Designer

Sep 2025 - Dec 2025

[K2X Tech](#) | Peshawar

At K2X Tech, I designed responsive, scalable interfaces for web and mobile products using advanced UI/UX practices, including adaptive components and modern design systems, while refining my auto-layout skills. I also improved user flows and overall usability in collaboration with developers.

UI/UX Designer

Aug 2023 - 2025

Freelance (project-based) | Remote

I collaborated with developers and cross-functional teams to create sleek, user-friendly UI/UX designs that deliver meaningful user experiences. I specialized in wireframing, prototyping, and high-fidelity design using tools like Figma, and translated business requirements into user-centered design solutions.

Projects

DIS - Dealership Information System

Jan 2026 - Present

Designed intuitive user experiences for mobile and web dealership solutions at DIS Corp, including DIS Mobile, Service Logistics Go, and Altura. Focused on simplifying complex workflows and improving usability, accessibility, and overall efficiency across platforms.

TargetCRM (Customer Relationship Management Platform)

Mar 2026 - Present

TargetCRM is a dealership-focused CRM platform that centralizes customer data from desktop and online sources to manage and grow business. It supports billing, invoicing, and customer engagement through messaging, broadcasts, surveys, and department-specific workflows (e.g., marketing & sales).

- Created seamless user flows for importing and managing customer conversation data via CSV files and third-party integrations (e.g., Twilio, Kennect).
- Contributed to the development of a scalable design system to ensure consistency and usability across the platform.
- Collaborated with cross-functional teams to translate business requirements into user-centered design solutions.

Giftlo - AI Gift Finder

Jun 2025 - Dec 2025

Designed an Airbnb-inspired AI SaaS gift app with a Tinder-style swipe experience for building and sharing wishlists. Included social features, birthday reminders, and an AI assistant for personalized gift recommendations based on

occasion, interests, and budget.

NextBestie

Jan 2025 - Nov 2025

Designed UI/UX for NextBesties, a social app for platonic connections through personality-based matching. Created flows for content feed, Travel Mode, and community hubs, while building a cohesive design system to improve usability and engagement.

Volunteer Experience

Event Organizer

Nov 2025 - Dec 2025

AirNexus

Organized Sports Badminton Tournament at AirNexus 2025.
